Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.
THE MADISON MUTUAL,
Located at Madison Wisconsin

THIS COMPANY CONTINUES TO TAKE Risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers, household furniture grain in barns, live stock, &c, from one to five years at lower rates than most other responsible Companies.
All losses promptly paid at the office as soon as proof is made thereon
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses only your own of the same class, and all will be on an equal footing
Experience has shown that two thirds if not three fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY TAKING FARM RISKS ALONE
Farmers look to your own interest, and Insure in a Farmers Company
We have been doing business a little over three years and we have not been obliged to assess our premium notes and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business which we believe to be without a parallel in the history of insurance

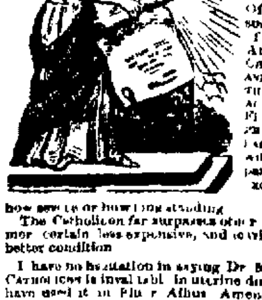
DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Females



IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended, usually called
Female Complaints
Of these are Prolapsus Uteri or Falling of the Womb, Fluor Albus or Whites,—Chronic Inflammation and Ulceration of the Womb, Incidental Hemorrhage or Flooding, Painful, Suppressed and Irregular Menstruation, &c, with all their accompanying evils (Cancer excepted,) no matter how severe or how long standing.
The Catholicon far surpasses other remedies in being more certain, less expensive, and leaving the system in better condition

I have no hesitation in saying Dr MARCHISI'S UTERINE CATHOLICON is invaluable in uterine diseases. I partially have used it in Fluor Albus Amenorrhoea, Prolapsus Uteri and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty
JOHN C ORRICK, M D.,
Baltimore Md

The Catholicon is doing good service here. [illegible] the patients that have tried the medicine have been benefitted but one—and that one nothing will help
Truly Yours,
WM. LAIRD HAZLETT, M D.,
July 6th, 1854 New Philadelphia Ohio

I must say, from my own experience and personal observations in my practice, it has proved to be the best and surest remedy for the difficulties for which it has been named, viz that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.
D Y FOOTE, M D.,
Syracuse N Y

Those needing such a remedy should inquire into the merits of the medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use, together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,
Located at Madison Wisconsin

THIS COMPANY CONTINUES TO TAKE risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers, household furniture, grain in farms, live stock, &c, from one to five years at lower rates than most other responsible Companies.
All losses promptly paid at the office as soon as proof is made thereon
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses but your own or the same class, and all will be on an equal footing
Experience has shown that two thirds if not three fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property In this Company all such property is rejected POSITIVELY BY LEAVING THEM ALONE
Farmers look to your own interest, and insure in a Farmers Company
We have been doing business a little over three years and we have not been obliged to assess our premium notes and for the last *fourteen months we have not had a single dollar loss,* though doing a large and prosperous business which we believe to be without a parallel in the history of insurance
The best of references given as to the responsibility of the Company.

The Sault St. Marie Canal.

We copy below a portion of a letter from C. T. Harvey, Esq., a contractor on the Canal to the Cleveland *Herald*, dated April 18th. The intelligence which it gives in detail is of great interest to our merchants, who can, if they will, do a large business with the Lake Superior region, and to travellers on business or for pleasure, who can now visit the mining regions without changing boats.

"Remarkably fine weather since April came in is enabling me to make up for time lost by the hard [illegible] of March, February and January. I embrace the opportunity of an extra mail sent over [illegible] to [illegible] tour, to meet a boat expected [illegible] inform you that we can to-day pass any vessel [illegible] into Lake Superior. [illegible] work was completed on the 8th inst. The dredging—which [illegible] be the only thing in the way of a finished canal—could no doubt be done about the same time, but the State authorities choose to delay it a little for the benefit of the work; but as before intimated, it need not interfere with the passing of vessels."

State Historical Society.

This Society is gradually accumulating a collection of books, pamphlets, paintings, manuscripts, &c., which place it in the front rank of such associations in the country, and testify to the unwearied zeal of its Secretary, Mr. Draper. At the last monthly meeting of the Executive Committee, at Madison, May 1st, a large number of letters were read, some announcing donations, and others promising additions to the Society's collection. Among them were letters from Sully, the painter, concerning his picture of Chief Justice Marshall for the Society; Clark Mills, promising another statuette of Jackson; Cropsy, the painter, promising a picture; Abbott Lawrence, a copy of the Perry medal; Capt. Dodge, his collection of rare coins, &c. &c. Hon. H. S. Baird consents to deliver the Annual Address.

Among the additions to the Society's collection [illegible] meeting, are Sully's portraits of [illegible], his son, The Prophet, and of Pocahontas; [illegible] 25 valuable books and a host of pamphlets.

The following persons were elected corresponding members:

The Harbor and City—its Trade—Statuary and Prisons—the Captives—the Arno—Country between Leghorn and Pisa—Pisa—the Cathedral of Pisa—the Campanile—Baptistry — Campo Santo.

LEGHORN, March 7th, 1855.

Took the Capri last evening for Civita Vecchia, and early this morning passed on our left the Gulf of Spezia. Here is supposed to be the spot in which Aeneas took refuge after he had experienced the great storm so well described by Virgil. At six we reached Leghorn, but owing to the same useless and un-business-like forms and ceremonies at all Italian ports, we did not get on shore for two hours.

The harbor seemed to have a goodly quantity of shipping in it. While sitting and waiting for orders to come that we might go on shore, my eyes caught the stars and stripes upon a flag that floated over one of the finest crafts in the port.—On taking another look, I saw that she hailed from Boston. The sailors were just raising the anchor, with a song, and setting their sails for home. I could hear their merry voices, although I could not distinguish the words. I imagined that they were the following:

"We're off boys! We're off boys!
The breeze is abaft,
Our ship splits the waves, boys,
The sails bend the masts.
Hurrah! for our good ship;
She sings as she flies,
A song to the wild wind,
A song of "good-byes."

Old Neptune is our King, boys,
The ocean's our home;
Our ship spreads her wings, boys,
And kisses the foam.
Farewell to the dull shore
We leave on our lee—
Three cheers for our good ship,
Three cheers for the sea."

On looking in another direction I saw another American vessel, equal in size and as finely modelled as the first. She was from New Orleans and was unloading. From what I learned afterwards, there is quite a trade between this city and the United States. From the former, marble is the principal article of traffic, for tobacco and other goods.

The city itself, I find on getting on shore, is modern in its appearance compared with the other Italian cities I have seen. The streets are wide, buildings exhibit good fronts, and there are a number of public squares left for breathing places and for ornament. The city however, is walled in. It contains a population of about 80,000 inhabitants. The inhabitants call it Livorno. Owing to the liberality of its early rulers in making it a free port of entry, and also tolerating all kinds of religion, this city has since its foundation, which was as late as 1577, been flourishing and prosperous. Its trade and commerce is now large, being ranked as the fifth city on the Mediterranean, viz. after Marseilles, Genoa, Trieste and Smyrna. Goods can be purchased here as cheap as in Paris or London. It is also a place where sculpture in alabaster and marble is carried on to a great extent—likewise the manufacture of coral ornaments. The Livornese have a number of vessels engaged in the coral fisheries on the north coast of Africa. On seeing some very beautiful statuary through the windows of a studio, I went in and enquired the prices. I was very much surprised at the cheapness with which they may be purchased. A small child in prayer, such as we see copied in plaster, about a foot high, was forty-five francs. A Psyche a little higher, 50 francs, and the three Graces, beautifully wrought, sixteen inches high, for eighty francs. How even the labor is paid for at such prices, I do not pretend to understand. Monsieur Benassai showed me a book containing American orders for a number of works. He said he charged nothing for the box and shipping them, and that the usual way was to send them directly, per vessel, to New York, consigned to some house there. His shop connected with his studio was full of works of art, from various subjects and of various sizes. I only allude to the above because they are familiar to almost every person.

Leghorn I should judge was healthy, as also a place of resort for invalids, and has its baths, walks and drives on the sea-shore, some two miles from the city. It contains but little of interest to the traveller in matters of antiquity or rare sights. There is one thing however, that cannot but interest the traveller, learned or unlearned, the moment he sees it. It is the noble statue, in marble, of Ferdinand I, by Giovanni. This stands on one of the principal squares. At the four corners of the pedestal on which the colossal statue stands, are four Turkish captives, likewise colossal, in bronze. The artist was Rietro, and his design was given to him by the Grand Duke, who took it from a father and three sons taken in the battle of Leparto. The Duke saw this group brought in, who each had statuesque frames and great manly beauty, but bowed down by grief, shame and sorrow. Hence the model. They are standing in a leaning posture of despair, with their hands chained behind them to the pillar. Each is represented with a different look of anguish, without a single ray of hope.—The artist has been true to himself and true to nature. So great an impression did this dumb and silent groupe have upon the sympathis of the people, appealing in a language that the heart alone understands, that in less than one month the prison doors were opened, and the captives set free.

No stranger can pass the statuary, not even knowing anything of the history of the subjects, but will feel the most generous of all human impulses arise in his breast, in behalf of these unfortunate prisoners.

Having taken breakfast and a bird's eye view of Leghorn, at eleven we started on a railway for Pisa, a distance of some dozen miles. After ten minutes ride from the city, we came into the valley of the river Arno. Owing to the late rains, as we were informed, the whole country was overflowed, and for miles we could not see but one sheet of water. At times the entire wheels of the cars would be under water.

The great features of the country resembled very much the prairie lands of the west. Belts of timber in the distance were occasionally seen, upon which were growing pine forests. These as we approached and left in the distance, had a fine and picturesque appearance.

Before we got to Pisa it commenced raining in torrents, and so continued the balance of the day. As the curiosities of the place were nearly a mile from the depot, hacks and cabs were in great demand, to the infinite delight of that species of gentry who drive them. We saw but little of the city farther than it appears very old, has substantial bridges and quays on the Arno, and contains a population of upwards of 30,000. After driving through a long course of narrow and dirty streets, we came to a group of low buildings, said by many travellers to be of more curiosity than any four edifices in the world—and further, that they are "fortunate in their solitude and their society." They all stood within a few rods of each other, and are known as the Cathedral, its Baptistry, the Campanile and the Campo Santo.

The former is an immense building, commenced in 1064, and consecrated in 1118. It was built from the spoils taken by the Pisans from the Saracens in the wars. It is between three and four hundred feet long, and built in the form of a Latin cross. The height on the inside of the church, from the floor to the vaulted roof of the main nave, is 91 feet. Here the eye rests upon pictures in mosaic, by the greatest artists. This great church is lighted throughout by windows containing stained glass. Immense collonades of pilasters, arches and pillars support the roofs; all are of the finest marble. Upon these and over the smaller naves and chapels, are paintings and frescoes of rare and exquisite beauty. The doors are of bronze, in size proportionate to the church, and have on them designs in relief, illustrating bible history.

The Campanile or Leaning Tower, is a singular freak of its projectors, whoever they might be. It is of cylindrical shape, fifty feet in diameter, and 178 feet in height. It consists of eight stories of columns, in each of which are semi-circular arches forming open galleries around the whole tower. It is said to lean some fifteen feet out of the perpendicular towards the east.—After ascending 330 steps, the traveller finds himself at the top, from which, although it rained hard, I think I had one of the finest views I ever saw. The top is unroofed and secured by an iron railing some five feet high. One however cannot but help thinking, that if it should fall while he is there, the chances of alighting safely, would hardly be worth calculating.

On the summit are seven bells, so arranged, that a preponderance of weight is given to the highest side, so that it would counteract the tendency of leaning. The largest of these bells weighs 12000 lbs, and they are said to be remarkably sonorous and harmonious. The best toned one is the fourth, which was always tolled when criminals were taken to execution.

What this building was built for, history is silent, and antiquarians have sought in vain for a cause.

The Baptistry is a similar structure, only being perpendicular and more after the fashion of a cathedral. It is 100 feet in diameter, inside of walls that are 8½ feet thick. It is of marble, and 180 feet high. The finish and elaborate designs, frescoes, paintings, &c., are very much like that of the cathedral, within a few feet of which it stands.

The Campo Santo, a burying place, is one of deep interest. It was founded by Archbishop Ubaldo in 1188, who caused to be removed from Mt. Calvary, 53 vessel loads of earth to consecrate the place. The size of the building enclosing this sacred collection of sepulchral monuments, is 415½ feet long by 138 in width, and in height 46 feet. Here are tombs in sarcophagi, with rich works of sculpture upon them, of various designs. In fact, the whole is a museum of statutes, obelisks, tombs and sarcophagi, in which rest the ashes of the most illustrious men of Pisa and even Italy, for many were brought from abroad to be interred—among them, knights, warriors, philosophers, merchants, abbots and bishops. The collection of paintings here too is very large; but it is entirely beyond the design of my letters to enter minutely into a description of works of this description, for it would be endless. Italy is a land full of paintings and statuary, not only of the ancient but modern, and to see them all would take a life-time.

F.

The Austrians in the Principalities.

A private letter from Bucharest, of the 20th ult., says:

On the 25th of February some Croat soldiers entered by force a private house in Krajova, where they ill-treated and murdered the mistress of the house, and dangerously wounded the husband.—The Government intervened, and by menaces and persecutions prevented the inhabitants from following up the matter as they had determined, by carrying their complaint to the foot of the Sultan's throne.

On the 11th of March an Austrian officer who was passing along the principal street of Krajova, seeing a lady at the window whom he considered pretty, entered the house and ascended to the to the apartment. The lady, understanding that the man had come with intentions dishonorable to her, opposed his entering her room, and when he forced his way in uttered loud cries for help. The people in the neighborhood ran to acquaint the husband of what was passing, and the latter ran to his house, and said to the officer, "What do you want here sir; whom are you seeking? I do not know you! You are not billetted in my house, and this lady whom you are insulting is my wife." He had scarcely said these words when the officer drew his sword, plunged it into the bosom of the unfortunate husband, and then march off as if he had performed some glorious feat of arms. The woman uttered cries of despair when she beheld the deed.

The neighbors crowded into the house, and the sight of the corpse bathed in a pool of blood, excited a sentiment of horror and a thirst for vengeance. Some hastened to announce the murder to the authorities, some sent off couriers to Kalafat, in order to inform the Turkish commandant, who lost no time in sending to Krajova a battalion of infantry, a squadron of cavalry and artillery, and the greater part proceeded to the quarters of the Austrian General to demand justice and reparation. The latter told them that they might go to the ——; that he would not punish his brave soldiers for the sake of fellows of their description. This brutal reply excited general indignation, and the inhabitants finding themselves aggrieved in what they held most sacred—their honor, property and lives—assembled at different points of the town, and closed their shops. The rallying cry was, 'Death to the Austrians!' One against four! Let the people of Bucharest submit to be slaughtered like cattle if such is their pleasure.

A general rising ensued, and the inhabitants, armed with sticks, stones, iron bars, and axes, attacked the Austrians they met in the streets, and put them to death. The Austrians, also, turned out in arms, formed in line, and charged the people, killing about 40 persons. The fury of the population redoubled.—The Roumian soldiers and the national Gendarmes also drew up in battle array, rushed upon the Austrians with fixed bayonets, and drove them out of the town with considerable slaughter; 300 Austrians and 50 Roumans lay dead on the field. Our men afterward re-entered the town, and the Austrians remained encamped in the neighboring fields, after burying their dead, without daring to return. The government found it necessary to interfere. The chief of the police of Bucharest repaired to Krajova to inquire into the affair, and notwithstanding his anxiety to exonerate the Austrians from all blame, he was obliged to admit their guilt. The administrator of the town was superseded in his post, because he too warmly defended his fellow-citizens.

The shops are still closed, and the Austrians continue in their camp outside the town. The exasperation of the people has not abated. They loudly insist on the formation of a high commission, and are determined to send a deputation to Constantinople to demand justice from the Sultan, in virtue of the first clause of the capitulation signed by Mahomed II., in 1460, in favor of the Roumans, and by which the Sultan, "undertakes, in his own name, and in that of his successors, to protect Wallachia and to defend it against every enemy, requiring only supremacy over that principality, the Woiwodes of which shal be held to pay the Sublime Porte a tribute of 10,000 piastres." This deputation will certainly leave for Constantinople if the Prince does not oppose its departure. Such are the sufferings of this kind, peaceable, hospitable people Will it be believed that these atrocities have been perpetrated in the 19th century, and at a period when civilization is engaged in a powerful crusade against barbarism?

P. S.—The number of victims to the brutality of the Austrians hitherto known is 247. This number is official.

MISFORTUNES NEVER COME SINGLY.—Lewis Lester, son of John Lester, had his leg broken in two places, between the knee and the foot, on Friday of last week. He was engaged in hauling logs, about a mile south of the village, when one of the rollers underneath a log, caught the heel of his boot, drawing his leg between it and the ground. He was attended by Drs. Preston and Deming, and is doing well. About two years ago one of his arms was drawn into a thresh- injured as to require amputation. Lewis is the brother of the little boy who, last week, narrowly escaped drowning.—[Manitowoc Herald.

REAL ESTATE PURCHASE.—Last week Capt. Rines purchased, from Mr. W. H. H. Bailey, the undivided half of fifty-four acres of land lying near this city, for the sum of $250 per acre, making the neat sum of $6,750. Who will say that real estate is not "looking up" in and around Janesville? We are informed that the Capt. was offered an advance of $50 per acre for the same premises on the same day of the purchase.—[Janesville Standard.

GOOD.—Mr. DARWIN, the efficient Agent of the M. & M. R. R. for this place, informs us that the Freight House, together with a new one nearly as large are filled to overflowing with freight, and 120 tons still in the cars. The business of the Madison Station alone for the past month exceeds $20,000. Who says that Western railroads are not good paying investments?—*Madison Patriot.*

LUMBER FOR CHICAGO AND MILWAUKEE.—It will be seen by reference to our Marine list, that several hundred thousand feet of lumber have been shipped by vessels within a day or two for Chicago and Milwaukee. This lumber is principally hemlock joists, flooring, and dressed fine for building purposes.—*Buffalo Democracy, May 5th.*

BROCKWAY COLLEGE.—We learn that the subscriptions to the College Fund are liberal, and have already reached an amount sufficient to justify the Board of Trustees in making arrangements for the early construction of one of the College buildings. An agent will soon be put in the field to canvass for aid from abroad.—[Ripon Herald.

ANOTHER SHEEP STORY.—We learn from Mr. T. O. Dousman, that the sheep of his, which we spoke of last week as having five lambs, has given birth to eleven lambs in three years. This is the largest "issue of stock" that we have heard of for a long time.—[Waukesha Plaindealer.

Vice-President Atchison heading a Missouri Mob in Kansas.

David R. Atchison, Vice President of the United States, actually headed a body of sixty Missourians at our late election in the Nymehaw district.—*Kansas Tribune.*

Wonder if Davy will present himself as a candidate for the Senate of the United States before the Legislature of Missouri after this exploit? If he voted in Kansas, as the above paragraph implies, he must have made oath that he was an actual resident of Kansas. If he was a resident citizen of Kansas, and entitled to vote in their elections, then he is not a citizens of Missouri, and a vast majority of the people of this State will rejoice that he has ceased to disgrace the State by calling it his home. If, on the other hand, he still claims to be a citizen of Missouri, he was guilty of a gross fraud by voting in Kansas and interfering in the elections in that Territory. Neither Atchison, nor any of his gang who voted in Kansas, should be permitted to vote at the next elections in this State. All patriotic citizens should keep their eyes upon them and challenge their votes in this State. They will not be permitted to vote here after swearing that they were citizens of Kansas and exercising the rights of citizens there, unless they can prove, that they have committed a fraud, which will entitle them to be punished, whenever they may be caught in the Territory hereafter.—[Missouri Democrat.

MIL. & MIS. RAILROAD.—From the Grant Co. *Herald*, we learn that the Agents of this company are now engaged in the north part of this county securing further aid towards this work. It further states that some who had taken stock largely were becoming somewhat dissatisfied and were disposed to regret that they had taken so much.

We are not advised as to the terms upon which the subscriptions are made, but from the past transactions of the Company, it appears to us that all unfavorable suspicions are unjust and intended to embarrass the progress of the road, whereas it should receive every encouragement within the means of those living along the line of its route. It is no Robert J. Walker scheme of speculation by which a few lazy, lousy, lying individuals are trying to "raise the wind," and in which the operators are alone to be benefitted, the extent of road which this Company have already put in successful operation, by the very means which they now solicit to aid in its further extension, and the large profits that the early stockholders have been enabled to reap, not only from their dividends, but from the great increase to the value of their lands, tenements and produce, should be a guaranty, were any required, of its integrity of purpose and of the permanent advantages which this road, when completed, will confer upon the country. To what may be attributed the rapid increase of lands lying along the Wisconsin, and the great number of Eastern men who are looking up farms in the northern part of the county, if it be not the fact that this road is soon to be built? The very prospect of the work—the shadow of the substance to come—has already added one hundred per cent to the price of every farm lying north of Lancaster.—Every man therefore who rightly calculates his own interest will not disparage a work of this kind, especially where there is so little to be risked as there is on the stock of this road which shortly promises not only to be the most profitable but among the safest in the West. We are all anxious to see these improvements made; we can feel their invigorating and enriching influence and hail their near approach to our premises; because we know that the success of our several employments is in a great measure dependent upon them. Let us give them, then, a proper encouragement, and not retard their progress by foolishly withholding such means as we are able to spare. It is too late in the day to distrust the character and ability of the Mil. & Mis. R. R. Company—what they purpose they accomplish, and what they promise they fulfill.—*Potosi Republican, May 7.*

THE BOOTH CASE.—In the case of the United States vs. Booth, of Wisconsin, for violation of the Fugitive Slave Law, a writ of error was obtained, returnable to the Supreme Court of the United States, for the purpose of determining the question of the limit of the jurisdiction between the courts of the States and those of the United States.

This case undoubtedly goes to the Supreme Court, under the expectation that its decision will be adverse to the interests of Freedom. Possibly it may, but it is nevertheless right and proper that the questions growing out of this class of cases should be submitted to the highest judicial tribunal of the Union, for its judgment.

Southern States, in conflicts between State and Federal authorities, demand that the Constitution shall be strictly, and literally "construed, so as to take from the former, and grant to the latter, no more powers than are expressly delegated —all others being reserved to the State.

This the United States Courts have acquiesced in. If the same principle is now adhered to by the Supreme Court, it will acknowledge the right of Michigan, Ohio, Wisconsin, Vermont, &c., to enact the laws which conflict with the Slave Law. And if, on the other hand, the United States Courts have one rule of action for Southern cases, and another for northern ones, it is high time the People knew it.

South Carolina and Virginia, come into Court! Hold up your right hands and each of you, severally, declare the truth, the whole truth, and nothing but the truth. Are State Rights only Southern rights, or do they extend to the Commonwealths North as well as South of the Chesapeake?—[Albany Evening Journal.

HOW HONORABLE, GENERAL AUGUSTUS CAESAR HANNIBAL DODGE CAME TO BE MINISTER PLENIPOTENTIARY AND ENVOY EXTRAORDINARY, &c. &c. &c. The New York *Times* thus explains it:

The circumstances under which Mr. DODGE obtained and accepted the appointment, constitute sufficient illustration of the characteristic of the man. It will be remembered that he was defeated for re-election to the United States Senate because of his devotion to Nebraskaism and Slaveocracy generally. The Administration, of course, felt itself bound to provide for him.—Early in February last, some one of his friends passed a paper around the floor of the Senate for the signature of Democrats, recommending Mr. DODGE to the President *for some* appointment.—The character of the appointment sought was not stated, and it was supposed that he desired a clerkship—or at most an auditorship in one of the Executive Departments. His brother Senators, willing to pension moderately, or, rather, unwilling to *refuse* a pension to one who was sitting with them in the Chamber, readily signed the DODGE subscription paper. Nobody dreamed that the petitioner aspired to a foreign mission. To suspect such a thing was beyond imaginative possibility. What consternation, then, seized upon the signers when the name of AUGUSTUS CAESAR DODGE was laid before them for the Spanish Mission! But what could the majority do? They were caught in the trap which had been laid for them. In their charity they had recommended DODGE without reservation, and the President had taken them at their word.—There was nothing to do but swallow the dose; and they did that at once, with many a wry face, and many a curse on their own stupidity, while more than one of those who were thus entrapped made no secret of their disgust. These facts were all stated at the time, and were not denied.

P. S.—The "*Cronica*," the Spanish paper in New York, thus records the title of the Plenipo in sonorous old Castilian:

"El Honorable General Augustus Cæsar Hannibal Dodge, nombrado Ministro Plenipotenciario de los Estados Unidos en la corte de Su Majestad Catolica.

FIRST PRESBYTERIAN CHURCH.—On Saturday evening last, "the First Presbyterian Church, of the city of Janesville." was organized in this place. The venerable Doctor Savage, of Waukesha was present on the occasion, also Rev's, Gardiner, of Madison, and Parks, of this County.

This congregation is now under the pastoral control of Rev. M. W. Staple, and for the present, their place of worship is in the Academy on the west side of the river. We have been informed that they have purchased from Mr. Dano, the lot nearly opposite the Episcopal church, for the sum of $2,200, upon which they propose to erect a building for their accommodation as soon as possible.—[Janesville Standard.

FOND DU LAC CO.—The prospects for farmers were never better at this season of the year. Notwithstanding the usual cold weather during March and a part of April, vegetation is now fully up to former seasons. During the past two weeks we have had much warm weather, the thermometer frequently going above 80. And abundant showers have given an impetus to all that's growing. Everything looks well for a bountiful harvest.—[Ripon Herald.

FOR BUFFALO.—The propellor Iowa, Capt. S. Alexander, sailed from this port on Saturday evening for Buffalo, having a cargo of 19,000 bushels of corn, 400 barrels of grease and lard, 360 do of flour, 75 bags of meal, 400 do oats, 120 do of seed, together with sundry merchandise.—There were about one hundred passengers on board the propellor, bound to ports on this lake and Lake Huron. Nearly half the number were Mormons, going to the settlement at Beaver Islands.—[Chicago Tribune.

BURNED TO DEATH.—A German woman, whose name we did not learn, while burning brush in Genesee last week, fell into the fire, and was burned to death. It is supposed that this horrible accident was caused by a fit.—[Waukesha Plaindealer.

HOUSE BURNED IN OTTOWA.—As we go to Press, we learn that the beautiful Dwelling House of J. O. HARRISON, Esq., in Ottowa, was burned to the ground yesterday morning.—*Waukesha Plaindealer.*

CITY MATTERS.

CORRESPONDENCE.

MILWAUKEE, May 8, 1855.

TO ALEXANDER MITCHELL, Esq.—Dear Sir:

The undersigned, your fellow-citizens, having learned your intention to sail for Europe in the course of the ensuing week, are unwilling to part with you, even for the brief period of your proposed journey, without giving some expression to the feelings of regard and esteem which they have long entertained. They cannot forget that during sixteen years past you have been a resident of this city, always prominent among its business men, active in every good work and laudable enterprise and for the greater part of the time the responsible manager of the leading Banking Institution of the North-west. Nor can they be unmindful of the fact that you have discharged the important trust and exercised the great power, thus confided to your hands, with singular ability, with unsullied and unquestioned integrity, to the mutual benefit of your associates and the business public, and to the credit and advantage of our City and State. As a slight acknowledgment, therefore, of the high respect in which they hold your financial character and talents, and as a parting token of regard for one whom they are proud to claim as a fellow-citizen and honored in calling a friend, they invite you to meet them at dinner on Friday evening next, the 11th instant.

Your fellow citizens and
well-wishers.

Milwaukee, May 10th 1855.

GENTLEMEN.—

I have just received your communication, tendering to me a dinner to be given on Friday evening of this week.

I sincerely thank you for this unexpected manifestation of kindly feeling, on the occasion of my leaving on a short visit to my native land, and while I must be permitted to say, that your friendship has led you to speak of me in terms to which I can lay no claim, I beg of you to believe that the compliment is all the more highly prized because felt to be undeserved.

It is impossible for any one to value more highly than I do, the good opinion of the business men of Milwaukee, and, since they have, with so much unanimity, seen fit to honor me with the invitation now before me, it becomes me to accept it—which I cordially do.

With sincere regard,
ALEX. MITCHELL.

Messrs. J. E. ARNOLD, JOHN LOCKWOOD and others.

The Dinner thus tendered to Mr. MITCHELL by so many of his friends and fellow-citizens comes off at the Walker House *this* evening at half past 8 o'clock.

CIRCUIT COURT.

JUDGE HUBBELL, PRESIDING.

WEDNESDAY, May 8 1855.

Bertha Jansen vs Andrew Jansen. Testimony filed.

Charles H. Silkman, adm'r, et al vs Levi J. Herrick et al. Report of Commissioners.

George Southwell vs The First Presbyterian Church, Milwaukee. Report of Referees confirmed, and judgment against plaintiff for costs.

D. G. Power vs Zebulon P. Mason et al. Motion to dissolve injunction.

George N. Sayres vs Robert Haney et al. Motion to set aside judgment and grant new trial.

Duncan C. Reed vs Lester H. Cotton. Judgment of nonsuit entered.

Sarah Parish vs Daniel Parish. Testimony filed.

Orville W. Ramsey et al vs Lewis J. Higby. Judgment of nonsuit entered.

☞ Among the passengers in the *Traveller*, yesterday, was Ex-Gov. SEYMOUR, of New York.

THE AMERICAN HARMONEONS.—These popular Vocalists, who visited our city some months since, commence a second engagement *this* evening. They are accompanied by Miss AZLENE ALLEN, a graceful and practised *Danseuse*, who will appear each evening in some of her best pieces. See programmes.

THE RECREATION CONCERTS.—Mr. RUPPIUS the projector of the series of Recreation Concerts announced by us a day or two since, informs us that we misapprehended his design in one particular. It is not intended to have dancing, as that might interfere with the pleasure which many who do not dance could otherwise enjoy in the Hall.

WANTED IMMEDIATELY.—A hundred or two—the more the better—of neat, cheap dwellings, for new-comers, whose purses are not as long as Astor's, but who are just as good men, and will be just as worthy citizens. Every day they are crowding in upon us, and there is scarcely a house to be had to cover their heads, for love or money. Is there not philanthropy enough—if pecuniary interest is not sufficiently strong—to induce some of our capitalists to erect such houses, and do it at once?

Wanted also, immediately, a set of consciences for such of our landholders as have never read Shakspeare, and seen themselves reflected in Shylock; but, who having leased lots to poor men, now double their demands, when they have them in their power. We have heard of some cruel cases of this kind.

THE COLLINGWOOD LINE.—The staunch and favorite steamer *Keystone State*—the pioneer of the new line to the east, by the Railroad from Collingwood to Toronto—will leave, on her first trip down, *this* (Friday) morning, from Kellogg & Strong's pier. The route is a delightful one, the fare *cheaper* than by Railroad, and the boats connecting on this Lake and Lake Ontario, all of the first class, in excellent trim and well commanded. To travellers bound east we commend the new line as eminently entitled to patronage and favor.

MAP OF MILWAUKEE.—Mr. E. H. PEASE, a competent designer, proposes to publish a large map of this city, exhibiting the wards in different colors, the lots all properly numbered, designating those which are built upon, and otherwise, &c. making just the thing that has long been needed here. His price, payable on delivery, is quite reasonable, and he will proceed at once to the work as soon as the necessary number of subscribers is obtained. A single day ought to be sufficient for this purpose, for the Map is just what everybody wants.

BADGER SAFE.—The safe ordered of BERLINER & BRUNO, of this city, for the Treasurer's Office, is finished, and the work of hoisting it into the office was going on yesterday. It costs $600, and is a splendid piece of workmanship. We learn that Messrs. Berliner & Bruno have already manufactured some 30 of their safes, and dispose of them as fast as they are completed.

CIRCUS COMING.—The advertisement announces it as containing the "grand—magnificent—celebrated —superior— beautiful—graceful— unparallelled—and elegant." What *would* James Russell Lowell say? Never mind, James. Perhaps you remember the time when, as a boy, you would have thought the above words too mean to indicate the glories of the Circus.

REAL ESTATE SALES.—We are furnished with the following sales, made by CALEB WALL, land agent, corner East Water and Wisconsin streets:

Middle 20 ft, Lot 3, Block 8, third Ward,	$3200
East ½ of S. W. ¼ Sec. 5, T. 7, R. 21,	$3300
West ½ of ditto,	$3200
Lot 3, Block 198, Rogers addition, 100 ft. square, Albion street, (cash)	$900
North ½ Lot 8, Block 91, 1st Ward,	$2200

LIGHTHOUSES.—At the Menomonee Locomotive Foundry are being manufactured the iron domes to contain the lanterns of seven of the new light-houses, to be erected on Lakes Michigan and Superior during the current year, for which A SWEET & Co., of this city, have the contract.

BALLOON & FIREWORKS.—Mons. Victor's announcement almost "took our breath away" when we saw it in proof, and we cannot imagine what effect it will have upon the people when *they* see it in practice. We hope that his aerial exhibition will go off better than did the eclipse last week, for that was a shocking failure, and none of the tickets were returned.

HANDSOME CARGO OF WHEAT.—The schooner *E. Cramer* clears to-day for Buffalo, with 7000 bushels of white winter wheat, the best cargo, we think, that ever left this port. It is owned by J. PLANKINTON and was shipped by DANIEL NEWHALL.

FOR BUFFALO.—The propeller *Illinois* will leave to-morrow night for Buffalo, calling at all the intermediate ports. For passage, &c, apply to JOHN GRIFFIN, three doors East of American Express Office.

CHOICE LOT FOR SALE.—Mr. J. H. CRAMPTON offers at auction, on administrator's sale, this morning, 30 feet on the west side of Main street, and next to the corner of Wisconsin street. The property must be sold to the highest bidder. It is well situated, and is constantly rising in value.

DISCHARGED.—The German boy arrested on Wednesday, on a charge of stealing lumber from the site of the old Theatre, was discharged from jail by direction of the District Attorney.

FURNITURE AT AUCTION.—Rooney has a large auction sale of fine and common furniture at 10 o'clock this morning.

FATAL ACCIDENT.—A German, named George Rubb, was kicked so severely by a horse on Wednesday evening, that he died last night. He left a wife and three children.

☞ We call attention to the advertisement of D. G. POWER, offering to our citizens in town or country four superior draught horses. Draymen and teamsters will do well to make a call at the stables and examine for themselves.

TENDER BEEF.—Fifteen head of fine young steers in first rate condition were brought by the *Traveller* yesterday, for J. F. LAYTON. A large number have been recently purchased by Mr. Layton in Warren County, Ill., expressly for his Meat Market.

DISCHARGED:—In the Circuit Court yesterday two persons were discharged, Louis Burr charged with larceny in a dwelling house, and Peter Hernies, wilful trespass cutting down trees on private property; the Grand Jury found no bills against them.

REAL ESTATE AND DRY GOODS.—Wall has both of them for sale, as see his advertisements; and he disposes of them with equal gusto. Try him.

RAILROAD SUPPLIES.—We invite the attention of railroad men to the advertisement of FOSTER & LEACH, who are general purveyors of railroad supplies, and agents of the Lawrence Machine shop.

☞ The steamer *Traveller* arrived from Chicago yesterday afternoon with a large load of passengers—upwards of four hundred for this port. She also brought fifteen head of fat cattle for J. F. LAYTON from Warren county, Ill.

SAFE.—The steamer *North Star*, at Cleveland from the Sault, reports that the propeller *Cincinnati*, which went ashore last fall near Pt. Aux Barques, lies where she went on, and is apparently uninjured.

A "NEW DEAL" DEMANDED.—The Madison *Patriot*, a Democratic paper, thus endeavors to impress upon its party friends the necessity of dismissing from employment the present State Officers and trying the virtue of a change:

The corruption and iniquity of the present Administration—its school land operations, its petty pilfering in a thousand and one ways and its gigantic scheme to swindle the state of thousands by the hundred, its maneuvring after the Swamp lands, and in fact its entire course of profligacy in itself and in its pets, have cast upon the Democracy a heavy load, if they consent to endure it. The only way that they can hope for the least success is to cut loose from all the party-hacks of villainy and take a bold and decided stand for the right, for honesty in officers and integrity in all departments of State.

If the party which to carry the forty on their backs, gorged as they are with plunder from the pockets of the tax-payers of the State, if they attempt to endorse in any degree the acts of the present administration, with its vetoes of nearly every attempt to look its frauds, they may expect to see the State send up such a Shanghai crow as they never before have heard; but if on the other hand they wash their hands of so monstrous an iniquity, and stand upon the platform of "opposition to every species of corruption" we see no reason why the State may not stand as it has heretofore stood, Democratic to the core.

OUR NEW MASTERS—WHO ARE THEY?—At the ratio of emigration westward, now progressing, it is evident that Wisconsin, Iowa and Minnesota will have their moral, industrial and political keeping in new hands before another year. But for the laws requiring of settlers a year's residence, the legislatures of the states and territory named, would be made by a new set next fall. What our new keepers are to do with us, is the next question. What new elements will they introduce into the new compact of fun, fancy and fashion, and will they try to mend things at Madison, by hoisting a new and better set of men into power? Are the new comers of a higher standard of principles and morals than the old set, and do they smoke pipes as the old ones do? We notice that all we see are well behaved, smoke good cigars and eschew rot-gut whiskey. They all inquire for farms, and talk of living by work. Very few mechanics are coming in, and no professional men. The quality of persons arriving appears to be of the highest order.—*Man. Co. Herald.*

[Correspondence of the Sentinel.]

Ice in Lake Erie—Prices and Freights at Buffalo, &c.

BUFFALO, May 7, 1855.

Editors Sentinel—The ice, which promised to leave on Friday, returned again on Saturday in all its strength, and there is more in sight than for several weeks. The wind is now springing up from the North, and it may part it in 3 or four days, if it blows hard. But few vessels succeeded in getting away on Friday, say 20 to 25 in all—the balance are all here, and 8 propellers and vessels have been in sight for 3 days past. The *B S. Shepard* and *Mary* have succeeded in getting in, after being in the ice 3 days. The propeller *Montezuma* has arrived. The cargo wheat per *B. S. Shepard* was offered at 1,50 without buyers; it would probably bring 1,75. There are no buyers here from abroad. On cargo of corn is now in port belonging to Gen'l Harrison, of your city, who intends to put it on the market to-day, or ship it to New York. It would bring 85 to 90c, probably 87½.

The first shipment of wheat has heretofore always brought the best prices (in the spring) and it is the impression here, that it will decline to 1,37½ to 1,50 before July.

Freights are about 12½a13c on corn to N. Y., by canal. Almost all the vessels here are light, and will have to go to Cleveland and elsewhere for their up freights, and it will be a long time before they get back, say 15th to 20th June, and your holders of grain had better ship as fast as possible.

I have just heard of a sale of corn—3852 bus on the propeller *St. Joseph* (now in the ice some 5 or 6 miles distant.) It was sold at 87½, and that is about the price corn would bring. The Central R. R. price on flour to New York is 75c per bbl.

Wheat would bring better prices in Oswego than here. Upper lake would have sold at $1,95 to 2,00 last week; the mills there can consume 40,000 to 50,000 bus per day.

Yours, &c., H.

NAVIGATION.—The south wind on Saturday brought down the ice and closed up our harbor again quite effectually. To-day a strong east wind prevails, and hopes are entertained that the lake will again be opened. Yesterday the tug Wm. Peck, Capt. Sims, went out and towed in the barque *B. S. Shepard* and the schooner *Robert Bruce*, both having large cargoes on board, shipped last fall. The *Bruce* was ashore near Windmill Point. The barque *Sovereign of the Lakes*, bound in, drifted down the river and is safe ashore near the Queen City Mills.—The brig *Preble* and schooner *Albatross* also went down, and the former is ashore at the head of Strawberry Island. The whereabouts of the latter we have not learned. All are probably safe, and will be got off as soon as assistance can be rendered.—*Buffalo Republic, 7th.*

IN DISTRESS.—The Brig Alleghany has returned to port having met with bad usage during the late gale. She is leaking badly, and her cargo will have to be taken out.—[Chicago Dem. Press of yesterday.

The Sault St. Marie Canal.

We copy below a portion of a letter from C. [illegible] Harvey, Esq. a contractor on the Canal to the Cleveland Herald, dated April 18th. The intelligence which it gives in detail is of great interest to our merchants, who can, if they will [illegible] a large business with the Lake Superior region, and to travellers on business or for pleasure, who can now visit the mining regions without changing boats.

"Remarkably fine weather since April came in is enabling me to make up for time lost by the hard months of March, February and January. I improve the opportunity of an extra mail sent [illegible] to D tour, to meet a boat expected [illegible] you that we can to-day pass any vessel you may bring on into Lake Superior. The excavation work was completed on the 8th inst. We let in the water from Lake Superior on Tuesday the 10th inst., and have made a channel through both coffer dams sufficient to pass a vessel.

"I expect to finish up the surface work of the canal by the first proximo, and have already commenced discharging men. The dredging—which will then be the only thing in the way of a finished canal—could no doubt be done about the same time, but the State authorities choose to delay it a little for the benefit of the work; but as before intimated, it need not interfere with the passing of vessels."

State Historical Society.

This Society is gradually accumulating a collection of books, pamphlets, paintings, manuscripts, &c., which place it in the front rank of such associations in the country, and testify to the unwearied zeal of its Secretary, Mr. DRAPER. At the last monthly meeting of the Executive Committee, at Madison, May 1st, a large number of letters were read, some announcing donations, and others promising additions to the Society's collection. Among them were letters from Sully, the painter, concerning his picture of Chief Justice Marshall for the Society; Clark Mills, promising another statuette of Jackson; Cropsy, the painter, promising a picture; Abbott Lawrence, a copy of the Perry medal; Capt. Dodge, [illegible] collection of rare coins, &c. &c. Hon. H. S. [illegible] consents to deliver the Annual Address.

The Harbor and City—its Trade—Statuary and Prisons—the Captives—the Arno—Country between Leghorn and Pisa—Pisa—the Cathedral of Pisa—the Campanile—Baptistry — Campo Santo.

LEGHORN, March 7th, 1855.

Took the Cepri last evening for Civita Vecchia, and early this morning passed on our left the Gulf of Spezia. Here is supposed to be the spot in which Aeneas took refuge after he had experienced the great storm so well described by Virgil. At six we reached Leghorn, but owing to the same useless and un-business-like forms and ceremonies at all Italian ports, we did not get on shore for two hours.

The harbor seemed to have a goodly quantity of shipping in it. While sitting and waiting for orders to come that we might go on shore, my eyes caught the stars and stripes upon a flag that floated over one of the finest crafts in the port.—On taking another look, I saw that she hailed from Boston. The sailors were just raising the anchor, with a song, and setting their sails for home. I could hear their merry voices, although I could not distinguish the words. I imagined that they were the following:

"We're off boys! We're off boys!
The breeze is abaft,
Our ship splits the waves, boys,
The sails bend the masts.
Hurrah! for our good ship;
She sings as she flies,
A song to the wild wind,
A song of "good-byes."

Old Neptune is our King, boys,
The ocean's our home;
Our ship spreads her wings, boys,
And kisses the foam.
Farewell to the dull shore
We leave on our lee—
Three cheers for our good ship,
Three cheers for the sea."

On looking in another direction I saw another American vessel, equal in size and as finely modelled as the first. She was from New Orleans and was unloading. From what I learned afterwards, there is quite a trade between this city and the United States. From the former, marble is the principal article of traffic for tobacco and other goods.

The city itself, I find on getting on shore, is modern in its appearance compared with the other Italian cities I have seen. The streets are wide, buildings exhibit good fronts, and there are a number of public squares left for breathing places and for ornament. The city however, is walled in. It contains a population of about 80,000 inhabitants. The inhabitants call it Livorno. Owing to the liberality of its early rulers in making it a free port of entry, and also tolerating all kinds of religion, this city has since its foundation, which was as late as 1577, been flourishing and prosperous. Its trade and commerce is now large, being ranked as the fifth city on the Mediterranean, viz. after Marseilles, Genoa, Trieste and Smyrna. Goods can be purchased here as cheap as in Paris or London. It is also a place where sculpture in alabaster and marble is carried on to a great extent—likewise the manufacture of coral ornaments. The Livornese have a number of vessels engaged in the coral fisheries on the north coast of Africa. On seeing some very beautiful statuary through the windows of a studio, I went in and enquired the prices. I was very much surprised at the cheapness with which they may be purchased. A small child in prayer, such as we see copied in plaster, about a foot high, was forty-five francs. A Psyche a little higher, 50 francs, and the three Graces, beautifully wrought, sixteen inches high, for eighty francs. How even the labor is paid for at such prices, I do not pretend to understand. Monsieur Benassai showed me a book containing American orders for a number of works. He said he charged nothing for the box and shipping them, and that the usual way was to send them directly, per vessel, to New York, consigned to some house there. His shop connected with his studio was full of works of art, from various subjects and of various sizes. I only allude to the above because they are familiar to almost every person.

Leghorn I should judge was healthy, as also a place of resort for invalids, and has its baths, walks and drives on the sea-shore, some two miles from the city. It contains but little of interest to the traveller in matters of antiquity or rare sights. There is one thing however, that cannot but interest the traveller, learned or unlearned, the moment he sees it. It is the noble statue, in marble, of Ferdinand I, by Giovanni. This stands on one of the principal squares. At the four corners of the pedestal on which the colossal statue stands, are four Turkish captives, likewise colossal, in bronze. The artist was Rietro, and his design was given to him by the Grand Duke, who took it from a father and three sons taken in the battle of Leparto. The Duke saw this group, brought in, who each had statuesque frames and great manly beauty, but bowed down by grief, shame and sorrow. Hence the model. They are standing in a leaning posture of despair, with their hands chained behind them to the pillar. Each is represented with a different look of anguish, without a single ray of hope.—The artist has been true to himself and true to nature. So great an impression did this dumb and silent groupe have upon the sympathies of the people, appealing in a language that the heart alone understands, that in less than one month the prison doors were opened, and the captives set free.

No stranger can pass the statuary, not even knowing anything of the history of the subjects, but will feel the most generous of all human impulses arise in his breast, in behalf of these unfortunate prisoners.

Having taken breakfast and a bird's eye view of Leghorn, at eleven we started on a railway for Pisa, a distance of some dozen miles. After ten minutes ride from the city, we came into the valley of the river Arno. Owing to the late rains, as we were informed, the whole country was overflowed, and for miles we could not see but one sheet of water. At times the entire wheels of the cars would be under water.

The great features of the country resembled very much the prairie lands of the west. Belts of timber in the distance were occasionally seen, upon which were growing pine forests. These as we approached and left in the distance, had a fine and picturesque appearance.

Before we got to Pisa it commenced raining in torrents, and so continued the balance of the day. As the curiosities of the place were nearly a mile from the depot, hacks and cabs were in great demand, to the infinite delight of that species of gentry who drive them. We saw but little of the city farther than it appears very old, has substantial bridges and quays on the Arno, and contains a population of upwards of 30,000. After driving through a long course of narrow and dirty streets, we came to a group of low buildings, said by many travellors to be of more curiosity than any four edifices in the world—and further, that they are "fortunate in their solitude and their society." They all stood within a few rods of each other, and are known as the Cathedral, its Baptistry, the Campdnile and the Campo Santo.

The former is an immense building, commenced in 1064, and consecrated in 1118. It was built from the spoils taken by the Pisans from the Saracens in the wars. It is between three and four hundred feet long, and built in the form of a Latin cross. The height on the inside of the church, from the floor to the vaulted roof of the main nave, is 91 feet. Here the eye rests upon pictures in mosaic, by the greatest artists. This great church is lighted throughout by windows containing stained glass. Immense collonades of pilasters, arches and pillars support the roofs; all are of the finest marble. Upon these and over the smaller naves and chapels, are paintings and frescoes of rare and exquisite beauty. The doors are of bronze, in size proportionate to the church, and have on them designs in relief, illustrating bible history.

The Campanile or Leaning Tower, is a singular freak of its projectors, whoever they might be. It is of cylindrical shape, fifty feet in diameter, and 178 feet in height. It consists of eight stories of columns, in each of which are semi-circular arches forming open galleries around the whole tower. It is said to lean some fifteen feet out of the perpendicular towards the east.—After ascending 330 steps, the traveller finds himself at the top, from which, although it rained hard, I think I had one of the finest views I ever saw. The top is unroofed and secured by an iron railing some five feet high. One however cannot but help thinking, that if it should fall while he is there, the chances of alighting safely, would hardly be worth calculating.

On the summit are seven bells, so arranged, that a preponderance of weight is given to the highest side, so that it would counteract the tendency of leaning. The largest of these bells weighs 12000 lbs, and they are said to be remarkably sonorous and harmonious. The best toned one is the fourth, which was always tolled when criminals were taken to execution.

What this building was built for, history is silent, and antiquarians have sought in vain for a cause.

The Baptistry is a similar structure, only being perpendicular and more after the fashion of a cathedral. It is 100 feet in diameter, inside of walls that are 8½ feet thick. It is of marble, and 180 feet high. The finish and elaborate designs, prescoes, paintings, &c., are very much like that of the cathedral, within a few feet of which it stands.

The Campo Santo, a burying place, is one of deep interest. It was founded by Archbishop Ubaldo in 1188, who caused to be removed from Mt. Calvary, 53 vessel loads of earth to consecrate the place. The size of the building enclosing this sacred collection of sepulchral monuments, is 415½ feet long by 138 in width, and in height 46 feet. Here are tombs in sarcophagi, with rich works of sculpture upon them, of various designs. In fact, the whole is a museum of statutes, obelisks, tombs and sarcophagi, in which rest the ashes of the most illustrious men of Pisa and even Italy, for many were brought from abroad to be interred—among them, knights, warriors, philosophers, merchants, abbots and bishops. The collection of paintings here too is very large; but it is entirely beyond the design of my letters to enter minutely into a description of works of this description, for it would be endless. Italy is a land full of paintings and statuary, not only of the ancient but modern, and to see them all would take a life-time.

F.

The Austrians in the Principalities.

A private letter from Bucharest, of the 20th ult., says:

On the 25th of February some Croat soldiers entered by force a private house in Krajova, where they ill-treated and murdered the mistress of the house, and dangerously wounded the husband.—The Government intervened, and by menaces and persecutions prevented the inhabitants from following up the matter as they had determined, by carrying their complaints to the foot of the Sultan's throne.

On the 11th of March an Austrian officer who was passing along the principal street of Krajova, seeing a lady at the window whom he considered pretty, entered the house and ascended to the to the apartment. The lady, understanding that the man had come with intentions dishonorable to her, opposed his entering her room, and when he forced his way in uttered loud cries for help. The people in the neighborhood ran to acquaint the husband of what was passing, and the latter ran to his house, and said to the officer, "What do you want here sir; whom are you seeking? I do not know you: You are not billetted in my house, and this lady whom you are insulting is my wife." He had scarcely said these words when the officer drew his sword, plunged it into the bosom of the unfortunate husband, and then march off as if he had performed some glorious feat of arms. The woman uttered cries of despair when she beheld the deed.

The neighbors crowded into the house, and the sight of the corpse bathed in a pool of blood, excited a sentiment of horror and a thirst for vengeance. Some hastened to announce the murder to the authorities, some sent off couriers to Kalafat, in order to inform the Turkish commandant, who lost no time in sending to Krajova a battalion of infantry, a squadron of cavalry and artillery, and the greater part proceeded to the quarters of the Austrian General to demand justice and reparation. The latter told them that they might go to the ——; that he would not punish his brave soldiers for the sake of fellows of their description. This brutal reply excited general indignation, and the inhabitants finding themselves aggrieved in what they held most sacred—their honor, property and lives—assembled at different points of the town, and closed their shops. The rallying cry was, 'Death to the Austrians!' One against four! Let the people of Bucharest submit to be slaughtered like cattle if such is their pleasure.

A general rising ensued, and the inhabitants, armed with sticks, stones, iron bars, and axes, attacted the Austrians they met in the streets, and put them to death. The Austrians, also, turned out in arms, formed in line, and charged the people, killing about 40 persons. The fury of the population redoubled.—The Rouman soldiers and the national Gendarmes also drew up in battle array, rushed upon the Austrians with fixed bayonets, and drove them out of the town with considerable slaughter; 300 Austrians and 50 Roumans lay dead on the field. Our men afterward re-entered the town, and the Austrians remained encamped in the neighboring fields, after burying their dead, without daring to return. The government found it necessary to interfere. The chief of the police of Bucharest repaired to Krajova to inquire into the affair, and notwithstanding his anxiety to exonerate the Austrians from all blame, he was obliged to admit their guilt. The administrator of the town was superseded in his post, because he too warmly defended his fellow-citizens.

The shops are still closed, and the Austrians continue in their camp outside the town. The exasperation of the people has not abated. They loudly insist on the formation of a high commission, and are determined to send a deputation to Constantinople to demand justice from the Sultan, in virtue of the first clause of the capitulation signed by Mahomed II., in 1460, in favor of the Roumans, and by which the Sultan, "undertakes, in his own name, and in that of his successors, to protect Wallachia and to defend it against every enemy, requiring only supremacy over that principality, the Woiwodes of which shall be held to pay the Sublime Porte a tribute of 10,000 piastres." This deputation will certainly leave for Constantinople if the Prince does not oppose its departure. Such are the sufferings of this kind, peaceable, hospitable people. Will it be believed that these atrocities have been perpetrated in the 19th century, and at a period when civilization is engaged in a powerful crusade against barbarism?

P. S.—The number of victims to the brutality of the Austrians hitherto known is 247. This number is official.

MISFORTUNES NEVER COME SINGLY.—Lewis Lester, son of John Lester, had his leg broken in two places, between the knee and the foot, on Friday of last week. He was engaged in hauling logs, about a mile south of the village, when one of the rollers underneath a log, caught the heel of his boot, drawing his leg between it and the ground. He was attended by Drs. Preston and Deming, and is doing well. About two years ago one of his arms was drawn into a thresh- injured as to require amputation. Lewis is the brother of the little boy who, last week, narrowly escaped drowning.—[Manitowoc Herald.

REAL ESTATE PURCHASE.—Last week Capt. Rines purchased, from Mr. W. H. H. Bailey, the undivided half of fifty-four acres of land lying near this city, for the sum of $250 per acre, making the neat sum of $6,750. Who will say that real estate is not "looking up" in and around Janesville? We are informed that the Capt. was offered an advance of $50 per acre for the same premises on the same day of the purchase.—[Janesville Standard.

GOOD.—Mr. DARWIN, the efficient Agent of the M. & M. R. R. for this place, informs us that the Freight House, together with a new one nearly as large are filled to overflowing with freight, and 120 tons still in the cars. The business of the Madison Station alone for the past month exceeds $20,000. Who says that Western railroads are not good paying investments?—*Madison Patriot.*

LUMBER FOR CHICAGO AND MILWAUKEE.—It will be seen by reference to our Marine list, that several hundred thousand feet of lumber have been shipped by vessels within a day or two for Chicago and Milwaukee. This lumber is principally hemlock joists, flooring, and dressed fine for building purposes.—*Buffalo Democracy, May 5th.*

BROCKWAY COLLEGE.—We learn that the subscriptions to the College Fund are liberal, and have already reached an amount sufficient to justify the Board of Trustees in making arrangements for the early construction of one of the College buildings. An agent will soon be put in the field to canvass for aid from abroad.—[Ripon Herald.

ANOTHER SHEEP STORY.—We learn from Mr. T. O. Dousman, that the sheep of his, which we spoke of last week as having five lambs, has given birth to eleven lambs in three years. This is the largest "issue of stock" that we have heard of for a long time.—[Waukesha Plaindealer.

Vice-President Atchison heading a Missouri Mob in Kansas.

David R. Atchison, Vice President of the United States, actually headed a body of sixty Missourians at our late election in the Nymehaw district.—*Kansas Tribune.*

Wonder if Davy will present himself as a candidate for the Senate of the United States before the Legislature of Missouri after this exploit? If he voted in Kansas, as the above paragraph implies, he must have made oath that he was an actual resident of Kansas. If he was a resident citizen of Kansas, and entitled to vote in their elections, then he is not a citizen of Missouri, and a vast majority of the people of this State will rejoice that he has ceased to disgrace the State by calling it his home. If, on the other hand, he still claims to be a citizen of Missouri, he was guilty of a gross fraud by voting in Kansas and interfering in the elections in that Territory. Neither Atchison, nor any of his gang who voted in Kansas, should be permitted to vote at the next elections in this State. All patriotic citizens should keep their eyes upon them and challenge their votes in this State. They will not be permitted to vote here after swearing that they were citizens of Kansas and exercising the rights of citizens there, unless they can prove, that they have committed a fraud, which will entitle them to be punished, whenever they may be caught in the Territory hereafter.—[Missouri Democrat.

MIL. & MISS. RAILROAD.—From the Grant Co. *Herald*, we learn that the Agents of this company are now engaged in the north part of this county securing further aid towards this work. It farther states that some who had taken stock largely were becoming somewhat dissatisfied and were disposed to regret that they had taken so much.

We are not advised as to the terms upon which the subscriptions are made, but from the past transactions of the Company, it appears to us that all unfavorable suspicions are unjust and intended to embarrass the progress of the road, whereas it should receive every encouragement within the means of those living along the line of its route. It is no Robert J. Walker scheme of speculation by which a few lazy, lousy, lying individuals are trying to "raise the wind," and in which the operators are alone to be benefited, the extent of road which this Company have already put in successful operation, by the very means which they now solicit to aid in its further extension, and the large profits that the early stockholders have been enabled to reap, not only from their dividends, but from the great increase to the value of their lands, tenements and produce, should be a guaranty, were any required, of its integrity of purpose and of the permanent advantages which this road, when completed, will confer upon the country. To what may be attributed the rapid increase of lands lying along the Wisconsin, and the great number of Eastern men who are looking up farms in the northern part of the county, if it be not the fact that this road is soon to be built? The very prospect of the work—the shadow of the substance to come—has already added one hundred per cent to the price of every farm lying north of Lancaster.—Every man therefore who rightly calculates his own interest will not disparage a work of this kind, especially where there is so little to be risked as there is on the stock of this road which shortly promises not only to be the most profitable but among the safest in the West. We are all anxious to see these improvements made; we can feel their invigorating and enriching influence and hail their near approach to our premises; because we know that the success of our several employments is in a great measure dependent upon them. Let us give them, then, a proper encouragement, and not retard their progress by foolishly withholding such means as we are able to spare. It is too late in the day to distrust the character and ability of the Mil. & Mis. R. R. Company—what they purpose they accomplish, and what they promise they fulfill.—*Potosi Republican, May 7.*

THE BOOTH CASE.—In the case of the United States vs. Booth, of Wisconsin, for violation of the Fugitive Slave Law, a writ of error was obtained, returnable to the Supreme Court of the United States, for the purpose of determining the question of the limit of the jurisdiction between the courts of the States and those of the United States.

This case undoubtedly goes to the Supreme Court, under the expectation that its decision will be adverse to the interests of Freedom. Possibly it may, but it is nevertheless right and proper that the questions growing out of this class of cases should be submitted to the highest judicial tribunal of the Union, for its judgment.

Southern States, in conflicts between State and Federal authorities, demand that the Constitution shall be strictly, and literally construed, so as to take from the former, and grant to the latter, no more powers than are expressly delegated—all others being reserved to the State.

This the United States Courts have acquiesced in. If the same principle is now adhered to by the Supreme Court, it will acknowledge the right of Michigan, Ohio, Wisconsin, Vermont, &c., to enact the laws which conflict with the Slave Law. And if, on the other hand, the United States Courts have one rule of action for Southern cases, and another for northern ones, it is high time the People knew it.

South Carolina and Virginia, come into Court! Hold up your right hands and each of you, severally, declare the truth, the whole truth, and nothing but the truth. Are State Rights only Southern rights, or do they extend to the Commonwealths North as well as South of the Chesapeake?—[Albany Evening Journal.

HOW HONORABLE, GENERAL AUGUSTUS CAESAR HANNIBAL DODGE CAME TO BE MINISTER PLENIPOTENTIARY AND ENVOY EXTRAORDINARY, &c. &c. &c. The New York *Times* thus explains it:

The circumstances under which Mr. Dodge obtained and accepted the appointment, constitute sufficient illustration of the characteristic of the man. It will be remembered that he was defeated for re-election to the United States Senate because of his devotion to Nebraskaism and Slaveocracy generally. The Administration, of course, felt itself bound to provide for him.—Early in February last, some one of his friends passed a paper around the floor of the Senate for the signature of Democrats, recommending Mr. DODGE to the President *for some* appointment.—The character of the appointment sought was not stated, and it was supposed that he desired a clerkship—or at most an auditorship in one of the Executive Departments. His brother Senators, willing to pension moderately, or, rather, unwilling to *refuse* a pension to one who was sitting with them in the Chamber, readily signed the DODGE subscription paper. Nobody dreamed that the petitioner aspired to a foreign mission. To suspect such a thing was beyond imaginative possibility. What consternation, then, seized upon the signers when the name of AUGUSTUS CAESAR DODGE was laid before them for the Spanish Mission! But what could the majority do? They were caught in the trap which had been laid for them. In their charity they had recommended DODGE without reservation, and the President had taken them at their word.—There was nothing to do but swallow the dose; and they did that at once, with many a wry face, and many a curse on their own stupidity, while more than one of those who were thus entrapped made no secret of their disgust. These facts were all stated at the time, and were not denied.

P. S.—The *"Cronica,"* the Spanish paper in New York, thus records the title of the Plenipo in sonorous old Castilian:

"El Honorable General Augustus Cæsar Hannibal Dodge, nombrado Ministro Plenipotenciario de los Estados Unidos en la corte de Su Majestad Catolica."

FIRST PRESBYTERIAN CHURCH.—On Saturday evening last, "the First Presbyterian Church, of the city of Janesville," was organized in this place. The venerable Doctor Savage, of Waukesha was present on the occasion, also Rev's. Gardiner, of Madison, and Parks, of this County.

This congregation is now under the pastoral control of Rev. M. W. Staple, and for the present their place of worship is in the Academy on the west side of the river. We have been informed that they have purchased from Mr. Dano, the lot nearly opposite the Episcopal church, for the sum of $2,200, upon which they propose to erect a building for their accommodation as soon as possible.—[Janesville Standard.

FOND DU LAC CO.—The prospects for farmers were never better at this season of the year. Notwithstanding the usual cold weather during March and a part of April, vegetation is now fully up to former seasons. During the past two weeks we have had much warm weather, the thermometer frequently going above 80. And abundant showers have given an impetus to all that's growing. Everything looks well for a bountiful harvest.—[Ripon Herald.

FOR BUFFALO.—The propeller Iowa, Capt. S. Alexander, sailed from this port on Saturday evening for Buffalo, having a cargo of 19,000 bushels of corn, 400 barrels of grease and lard, 360 do of flour, 75 bags of meal, 400 do oats, 120 do of seed, together with sundry merchandise.—There were about one hundred passengers on board the propeller, bound to ports on this lake and Lake Huron. Nearly half the number were Mormons, going to the settlement at Beaver Islands.—[Chicago Tribune.

BURNED TO DEATH.—A German woman, whose name we did not learn, while burning brush in Genesee last week, fell into the fire, and was burned to death. It is supposed that this horrible accident was caused by a fit.—[Waukesha Plaindealer.

HOUSE BURNED IN OTTOWA.—As we go to Press, we learn that the beautiful Dwelling House of J. O. HARRISON, Esq., in Ottowa, was burned to the ground yesterday morning.—*Waukesha Plaindealer.*

CITY MATTERS.

CORRESPONDENCE.

MILWAUKEE, May 8, 1855.

TO ALEXANDER MITCHELL, Esq.—Dear Sir:

The undersigned, your fellow-citizens, having learned your intention to sail for Europe in the course of the ensuing week, are unwilling to part with you, even for the brief period of your proposed journey, without giving some expression to the feelings of regard and esteem which they have long entertained. They cannot forget that during sixteen years past you have been a resident of this city, always prominent among its business men, active in every good work and laudable enterprize and for the greater part of the time the responsible manager of the leading Banking Institution of the North-west. Nor can they be unmindful of the fact that you have discharged the important trust and exercised the great power, thus confided to your hands, with singular ability, with unsullied and unquestioned integrity, to the mutual benefit of your associates and the business public, and to the credit and advantage of our City and State. As a slight acknowledgment, therefore, of the high respect in which they hold your financial character and talents, and as a parting token of regard for one whom they are proud to claim as a fellow-citizen and honored in calling a friend, they invite you to meet them at dinner on Friday evening next, the 11th instant.

Your fellow citizens and well-wishers.

Milwaukee, May 10th 1855.

GENTLEMEN—

I have just received your communication, tendering to me a dinner to be given on Friday evening of this week.

I sincerely thank you for this unexpected manifestation of kindly feeling, on the occasion of my leaving on a short visit to my native land, and while I must be permitted to say, that your friendship has led you to speak of me in terms to which I can lay no claim, I beg of you to believe that the compliment is all the more highly prized because felt to be undeserved.

It is impossible for any one to value more highly than I do, the good opinion of the business men of Milwaukee, and since they have, with so much unanimity, seen fit to honor me with the invitation now before me, it becomes me to accept it—which I cordially do.

With sincere regard,
ALEX. MITCHELL.

Messrs. J. E. ARNOLD, JOHN LOCKWOOD and others.

The Dinner thus tendered to Mr. MITCHELL by so many of his friends and fellow-citizens comes off at the Walker House *this* evening at half past 8 o'clock.

CIRCUIT COURT.

Charles H. Silkman, adm'r, et al vs Levi J. Herrick et al. Report of Commissioners.

George Southwell vs The First Presbyterian Church, Milwaukee. Report of Referees confirmed, and judgment against plaintiff for costs.

George N. Sayres vs Robert Haney et al. Motion to set aside judgment and grant new trial.

Duncan C. Reed vs Lester H. Cotton. Judgment of nonsuit entered.

Sarah Parish vs Daniel Parish. Testimony filed.

Orville W. Ramsey et al vs Lewis J. Higby. Judgment of nonsuit entered.

☞ Among the passengers in the *Traveller* yesterday, was Ex-Gov. SEYMOUR, of New York.

THE AMERICAN HARMONEONS.—These popular Vocalists, who visited our city some months since, commence a second engagement *this* evening. They are accompanied by Miss AZLENE ALLEN, a graceful and practised *Danseuse*, who will appear each evening in some of her best pieces. See programmes.

THE RECREATION CONCERTS.—Mr. RUFFIUS the projector of the series of Recreation Concerts announced by us a day or two since, informs us that we misapprehended his design in one particular. It is not intended to have dancing, as that might interfere with the pleasure which many who do not dance could otherwise enjoy in the Hall.

WANTED IMMEDIATELY.—A hundred or two—the more the better—of neat, cheap dwellings, for new-comers, whose purses are not as long as Astor's, but who are just as good men, and will be just as worthy citizens. Every day they are crowding in upon us, and there is scarcely a house to be had to cover their heads, for love or money. Is there not philanthropy enough—if pecuniary interest is not sufficiently strong—to induce some of our capitalists to erect such houses, and do it at once?

Wanted also, immediately, a set of consciences for such of our Landholders as have never read Shakspeare, and seen themselves reflected in Shylock; but, who having leased lots to poor men, now double their demands, when they have them in their power. We have heard of some cruel cases of this kind.

THE COLLINGWOOD LINE.—The staunch and favorite steamer *Keystone State*—the pioneer of the new line to the east, by the Railroad from Collingwood to Toronto—will leave, on her first trip down, *this* (Friday) morning, from Kellogg & Strong's pier. The route is a delightful one, the fare *cheaper* than by Railroad, and the boats connecting on this Lake and Lake Ontario, all of the first class, in excellent trim and well commanded. To travellers bound east we commend the new line as eminently entitled to patronage and favor.

MAP OF MILWAUKEE.—Mr. E. H. PEASE, a competent designer, proposes to publish a large map of this city, exhibiting the wards in different colors, the lots all properly numbered, designating those which are built upon, and otherwise, &c., making just the thing that has long been needed here. His price, payable on delivery, is quite reasonable, and he will proceed at once to the work as soon as the necessary number of subscribers is obtained. A single day ought to be sufficient for this purpose, for the Map is just what everybody wants.

BADGER SAFE.—The safe ordered of BERLINER & BRUNO, of this city, for the Treasurer's Office, is finished, and the work of hoisting it into the office was going on yesterday. It costs $600, and is a splendid piece of workmanship. We learn that Messrs. Berliner & Bruno have already manufactured some 30 of their safes, and dispose of them as fast as they are completed.

CIRCUS COMING.—The advertisement announces it as containing the "grand—magnificent—celebrated —superior— beautiful—graceful—unparallelled—and elegant." What *would* James Russell Lowell say? Never mind, James. Perhaps you remember the time when, as a boy, you would have thought the above words too mean to indicate the glories of the Circus.

REAL ESTATE SALES.—We are furnished with the following sales, made by CALEB WALL, land agent, corner East Water and Wisconsin streets:

Middle 20 ft, Lot 3, Block 8, third Ward,	$3200
East ½ of S. W. ¼ Sec. 5, T. 7, R. 21,	$3300
West ½ of ditto,	$3200
Lot 3, Block 198, Rogers addition, 100 ft. square, Albion street, (cash)	$900
North ½ Lot 8, Block 91, 1st Ward,	$2200

LIGHTHOUSES.—At the Menomonee Locomotive Foundry are being manufactured the iron domes to contain the lanterns of seven of the new light-houses, to be erected on Lakes Michigan and Superior during the current year, for which A SWEET & Co., of this city, have the contract.

BALLOON & FIREWORKS.—Mons. Victor's announcement almost "took our breath away" when we saw it in proof, and we cannot imagine what effect it will have upon the people when *they* see it in practice. We hope that his aerial exhibition will go off better than did the eclipse last week, for that was a shocking failure, and none of the tickets were returned.

HANDSOME CARGO OF WHEAT.—The schooner *E. Cramer* clears to-day for Buffalo, with 7000 bushels of white winter wheat, the best cargo, we think, that ever left this port. It is owned by J. PLANKINTON and was shipped by DANIEL NEWHALL.

FOR BUFFALO.—The propeller *Illinois* will leave to-morrow night for Buffalo, calling at all the intermediate ports. For passage, &c, apply to JOHN GRIFFIN, three doors East of American Express Office.

CHOICE LOT FOR SALE.—Mr. J. H. CRAMPTON offers at auction, on administrator's sale, this morning, 30 feet on the west side of Main street, and next to the corner of Wisconsin street. The property must be sold to the highest bidder. It is well situated, and is constantly rising in value.

DISCHARGED.—The German boy arrested on Wednesday, on a charge of stealing lumber from the site of the old Theatre, was discharged from jail by direction of the District Attorney.

FURNITURE AT AUCTION.—Rooney has a large auction sale of fine and common furniture at 10 o'clock this morning.

FATAL ACCIDENT.—A German, named George Rubb, was kicked so severely by a horse on Wednesday evening, that he died last night. He left a wife and three children.

☞ We call attention to the advertisement of D. G. POWER, offering to our citizens in town or country four superior draught horses. Draymen and teamsters will do well to make a call at the stables and examine for themselves.

TENDER BEEF.—Fifteen head of fine young steers in first rate condition were brought by the *Traveller* yesterday; for J. F. LAYTON. A large number have been recently purchased by Mr. Layton in Warren County, Ill., expressly for his Meat Market.

DISCHARGED:—In the Circuit Court yesterday two persons were discharged, Louis Burr charged with larceny in a dwelling house, and Peter Hernies, wilful trespass cutting down trees on private property; the Grand Jury found no bills against them.

REAL ESTATE AND DRY GOODS.—Wall has both of them for sale, as see his advertisements; and he disposes of them with equal gusto. Try him.

RAILROAD SUPPLIES.—We invite the attention of railroad men to the advertisement of FOSTER & LEACH, who are general purveyors of railroad supplies, and agents of the Lawrence Machine shop.

☞ The steamer *Traveller* arrived from Chicago yesterday afternoon with a large load of passengers—upwards of four hundred for this port. She also brought fifteen head of fat cattle for J. F. LAYTON from Warren county, Ill.

SAFE.—The steamer *North Star*, at Cleveland from the Sault, reports that the propeller *Cincinnati*, which went ashore last fall near Pt. Aux Barques, lies where she went on, and is apparently uninjured.

A "NEW DEAL" DEMANDED.—The Madison *Patriot*, a Democratic paper, thus endeavors to impress upon its party friends the necessity of dismissing from employment the present State Officers and trying the virtue of a change:

> The corruption and iniquity of the present Administration—its school land operations, its petty pilfering in a thousand and one ways and its gigantic scheme to swindle the state of thousands by the hundred, its maneuvring after the Swamp lands, and in fact its entire course of profligacy in itself and in its pets, have cast upon the Democracy a heavy load, if they consent to endure it. The only way that they can hope for the least success is to cut loose from all the party-hacks of villainy and take a bold and decided stand for the right, for honesty in officers and integrity in all departments of State.
>
> If the party which to carry the forty on their backs, gorged as they are with plunder from the pockets of the tax-payers of the State, if they attempt to endorse in any degree the acts of the present administration, with its vetoes of nearly every attempt to look its frauds, they may expect to see the State send up such a Shanghai crow as they never before have heard; but if on the other hand they wash their hands of so monstrous an iniquity, and stand upon the platform of "opposition to every species of corruption" we see no reason why the State may not stand as it has heretofore stood, Democratic to the core.

OUR NEW MASTERS—WHO ARE THEY?—At the ratio of emigration westward, now progressing, it is evident that Wisconsin, Iowa and Minnesota will have their moral, industrial and political keeping in new hands before another year. But for the laws requiring of settlers a year's residence, the legislatures of the states and territory named, would be made by a new set next fall. What our new keepers are to do with us, is the next question. What new elements will they introduce into the new compact of fun, fancy and fashion, and will they try to mend things at Madison, by hoisting a new and better set of men into power? Are the new comers of a higher standard of principles and morals than the old set, and do they smoke pipes as the old ones do? We notice that all we see are well behaved, smoke good cigars and eschew rot-gut whiskey. They all inquire for farms, and talk of living by work. Very few mechanics are coming in, and no professional men. The quality of persons arriving appears to be of the highest order.—*Man. Co. Herald.*

MARINE INTELLIGENCE.

[Correspondence of the Sentinel.]

Ice in Lake Erie—Prices and Freights at Buffalo, &c.

BUFFALO, May 7, 1855.

Editors Sentinel —The ice, which promised to leave on Friday, returned again on Saturday in all its strength, and there is more in sight than for several weeks. The wind is now springing up from the North, and it may pass it in 3 or four days, if it blows hard. But few vessels succeeded in getting away on Friday, say 20 to 25 in all—the balance are all here, and 8 propellers and vessels have been in sight for 3 days past. The *B. S. Shepard* and *Mary* have succeeded in getting in, after being in the ice 3 days. The propeller *Montezuma* has arrived. The cargo wheat per *B. S. Shepard* was offered at 1,90 without buyers; it would probably bring 1.75. There are no buyers here from abroad. On cargo of corn is now in port belonging to Gen'l Harrison, of your city, who intends to put it on the market to-day, or ship it to New York. It would bring 86 to 90, probably 87½.

The first shipment of wheat has heretofore always brought the best prices (in the spring) and it is the impression here, that it will decline to 1,37½ to 1,30 before July.

Freights are about 13½a13c on corn to N. Y. by canal. Almost all the vessels here are light, and will have to go to Cleveland and elsewhere for their up freights, and it will be a long time here before they get back, say 10th to 20th June, and your holders of grain had better ship as fast as possible.

I have just heard of a sale of corn—3858 bus on the propeller *St. Joseph* (now in the ice some 5 or 6 miles distant.) It was sold at 87½, and that is about the price corn would bring. The Central R. R. price on flour to New York is 75c per bbl.

Wheat would bring better prices in Oswego than here. Upper lake would have sold at $1,85 to 2,00 last week; the mills there can consume 40,000 to 50,000 bus per day.

Yours, &c., H.

NAVIGATION.—The south wind on Saturday brought down the ice and closed up our harbor again quite effectually. To-day a strong east wind prevails, and hopes are entertained that the lake will again be opened. Yesterday the tug Wm. Peck, Capt. Mix, went out and towed in the barque *B. S. Shepard* and the schooner *Robert Bruce*, both having large cargoes on board, shipped last fall. The *Bruce* was ashore near Windmill Point. The barque *Sovereign of the Lakes*, bound in, drifted down the river and is safe ashore near the Queen City Mills.—The brig *Preble* and schooner *Albatross* also went down, and the former is ashore at the head of Strawberry Island. The whereabouts of the latter we have not learned. All are probably safe, and will be got off as soon as assistance can be rendered.—*Buffalo Republic, 7th.*

IN DISTRESS.—The Brig Allegheny has returned to port having met with bad seas during the late gale. She is leaking badly, and her cargo will have to be taken out.—[Chicago Dem. Press of yesterday.

HAS THE PLEASURE OF ANNOUNCING TO THE Citizens of Milwaukee, that he has opened Rooms in the

Law Buildings, Wisconsin Street,
FOR DENTAL OPERATIONS

Dr. F. introduces to this community the New Method of constructing Artificial Dentures on Platinum, called

DR. J. ALLEN'S
Continuous Gum Work,

combining cleanliness, great beauty, with life like expression, strength, utility, and restoration of the form and contour of the face. This work is unequalled, and stands preeminently first and will sooner or later take the precedent over the various kinds of Artificial Dentures manufactured in this or any other country. Specimens may be seen at his Room any time during office hours

After twelve years experience in dental practice, Dr. F. takes great pleasure in warranting all operations in the mouth, such as Gold Stoppings, Gold Plates, Teeth on Pivots, Teeth regulated, cleansed and extracted, &c

Strict attention will be paid to all diseases arising from or in any way connected with decayed teeth. Also, counsel given in reference to the management of children's teeth. Advice and counsel given without charge

Office hours from 9 A. M. to 1 P. M., from 2 to 6 P. M., and from 7 to 9 P. M.

THE GOOD SAMARITAN.

A little girl crossing Broadway, above the mound a day or two ago, was knocked down and badly bruised by the reckless driving of a drunken brute, who immediately put whip to his horse and made off. Several persons ran to see if the child was hurt. While some cursed the driver—some pitied the child, and others wondered who she was—an old countryman got down from his wagon, drew from his pocket a bottle of Mustang Liniment, bathed the wounds upon the child, and carried her in a state of insensibility, to a neighboring house, which proved to be her home. Yesterday he had the satisfaction to see her quite well. "Ah!" said the old man "I never knew it to fail—I always carry a bottle in my pocket" and so he does

CROPS.—Never did winter wheat look any better than it does this spring, in this section of the country. There is every prospect now of the most abundant yield which there has ever been, and our farmers are feeling good in proportion to the prospects, as they have a right to. Property is increasing in value very rapidly, and improvements of all sorts are being made with a rapidity which would astonish an eastern man entirely.—*Montello Young American*

FOREIGNERS IN THE MILITARY SERVICE OF THE UNITED STATES.—We learn from an official source that since the last of October there have been transported and embarked at Fort Columbus, to join their regiments in the West, eighteen hundred and forty seven recruits, only three hundred and twenty-four of whom were born in the United States, or a little more than one sixth. Of the whole number 850 were Irish and 395 German. These are about the proportions of natives to foreigners for some time past.—*Boston Atlas*

PATENT MEDICINE.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious Diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well, while a costive habit of body prevails, besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston, and State Assayer of Massachusetts, whose high professional character is [illegible] by [illegible]—

Hon. EDWARD EVERETT, Senator of the United States

ROBERT C. WINTHROP Ex Speaker of the House of Representatives

ABBOTT LAWRENCE, Minister Plen. to England

JOHN B. FITZPATRICK, Catholic Bishop of Boston, also

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State

WM. B. ASTOR, the richest man in America

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial and the Pills a more powerful antidote to disease than any other medicine known to the world

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease

Continuous Gum Work,

combining cleanliness, great beauty, with life-like expression, strength, utility, and restoration of the form and contour of the face. Specimens may be seen at his Room any time during office hours.

After twelve years experience in dental practice, Dr. F. takes great pleasure in warranting all operations in the mouth, such as Gold Stoppings, Gold Plates, Teeth on Pivots, Teeth regulated, cleansed and extracted, &c.

Strict attention will be paid to all diseases arising from or in any way connected with decayed teeth. Also, counsel given in reference to the management of children's teeth. Advice and counsel given without charge.

THE GOOD SAMARITAN.

A little girl crossing Broadway, above the mound a day or two ago, was knocked down and badly bruised by the reckless driving of a drunken brute, who immediately put whip to his horse and made off. Several persons ran to see if the child was hurt. Whilst some cursed the driver—some pitied the child, and others wondered who she was—an old countryman got down from his wagon, drew from his pocket a bottle of Mustang Liniment, bathed the wounds upon the child, and carried her in a state of insensibility, to a neighboring house, which proved to be her home. Yesterday he had the satisfaction to see her quite well. "Ah!" said the old man "I never knew it fail—I always carry a bottle in my pocket" and so he does.—St. Louis Intelligencer.

Property is increasing in value very rapidly, and improvements of all sorts are being made with a rapidity which would astonish an eastern man entirely.—Monticello Young American.

FOREIGNERS IN THE MILITARY SERVICE OF THE UNITED STATES.—We learn from an official source that since the last of October there have been inspected and embarked at Fort Columbus, to join their regiments in the West, eighteen hundred and forty seven recruits, only three hundred and twenty-four of whom were born in the United States, or a little more than one sixth. Of the whole number 850 were Irish and 395 German. These are about the proportions of natives to foreigners for some time past.—Boston Atlas.

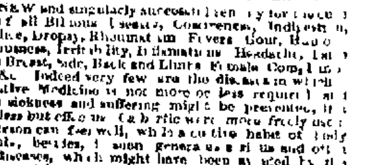
PATENT MEDICINE.



AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious Diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well, while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston, and State Assayer of Massachusetts, whose high professional character is vouched by

Hon. EDWARD EVERETT, Senator of the United States.

ROBERT C. WINTHROP, Ex Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England.

JOHN B. FITZPATRICK, Catholic Bishop of Boston; also

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many of my remedies should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them they will be promptly forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

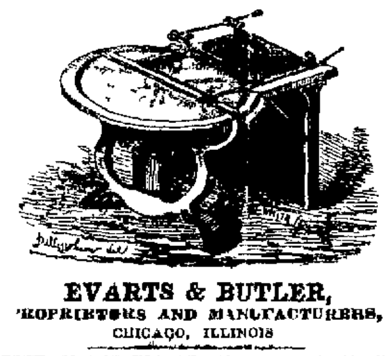
EVARTS'

Patent Shingle Mill.



EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives speed of execution, and the flexibility of the single width wise renders the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market at only five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

You have a full view of the City and Lake, for besides is not to be surpassed, the soil is rich, and I see no reason why property in Sherman's Addition should not command as good prices as in the First Ward, and it will if only a few individuals will commence and build fine houses. I, for one, will sell my present premises, and would agree to build in Sherman's Addition, Second Ward.

PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by GILBERT HEWS, of Boston, Mass.

The Patent American Action Piano Fortes distinguished for its great fullness, richness and sweetness of tone, evenness of scale and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. GOTTSCHALK, to Mr Hews, Agent at New York:

New York, Dec 5, 1853

MR. N. J. CURTISS—

Dear Sir: Having had the pleasure of performing upon Geo. Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully, L. M. GOTTSCHALK

From the distinguished Pianist, WILLIAM MASON.

MR. HEWS.—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge that for certainty and elasticity of action, power, purity and equality of tone I have never seen them surpassed in the Square Piano Forte.

WILLIAM MASON

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

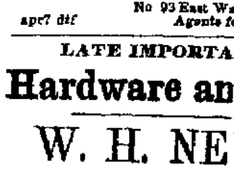
QUEEN'S PATENT PORTABLE FORGE AND BELLOWS!



THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out door work and for safety in doors, this Forge has great advantages over others having two Slides by which the Forge can be closely shut up, and for safety and many purposes in doors, (particularly for Jewelers, Dentists and for chemical operations,) all the fumes from charcoal and acids being conducted through the smoke pipe, or when open they are entirely out of the way. It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries ever offered to the public, and are successfully used by most of the steamers, and also by the U. S. Army and Navy. For sale by

CITY LAND OFFICE.

I CALL YOUR ATTENTION TO one of the most beautiful Farms in the State of Wisconsin, known as the

Walnut Hill Farm.

The description of it is as follows, given by the owner, and he offers it on easy terms.

The said Farm is situated upon the west end of Pewaukee Lake, two miles south of the village of Hartland, in Waukesha county, containing three hundred and fifty acres of land, well watered by springs, and has a mile of front on the lake—has a good new framed house and barn located upon the bank of the Lake, with good hard gravelled shores, and is surrounded with groves of fine hickory trees which bore in abundance last season, there being about five hundred bushels on the premises.

The above Farm was one of the first locations made in Waukesha county, in 1836, and now has over one hundred acres under plough, in a fine state of cultivation—about sixty acres of good hay land, the balance timber—is all under fence, has a plank road within two miles on the north and a good road within two miles on the south—the depot, at Hartland, on the Milwaukee and Watertown Railroad, is within two miles. Pewaukee Lake abounds with the finest kind of fish. The Farm is one of the best Stock Farms in all the Western country—none excepted. It is 25 miles from Milwaukee—8 miles from Waukesha.

Pains or Inflamation in Man or Beast.

RELIABLE EVIDENCE.

BLOOMFIELD, MO., January 15, 1854.

Messrs. A. G. BRAGG & CO.,

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment. In all cases of burns or scalds I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton, and nothing else, and in ten days it was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow and it had the same good effect.

Yours, truly, D. B. MILLER, County Judge

RUSSELL COUNTY, ALA., Feb. 1, 1853.

For the benefit of the afflicted, I feel it my duty to state publicly the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon or Whitlow on her finger. The inflammation had been so extensive that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life appeared to be to have it cut off. As her general health was very delicate, the Doctor advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus as it could do no harm and might prevent mortification. To the astonishment of the doctor and myself the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned; the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied and nothing else was used. The relief and cure was almost beyond belief, but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILIPS.

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores, as well as piles, erysipelas, pains or lameness in the back, side or limbs, than rheumatism, any other remedy. These are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used, and never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES.—It is put up in bottles of all sizes and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

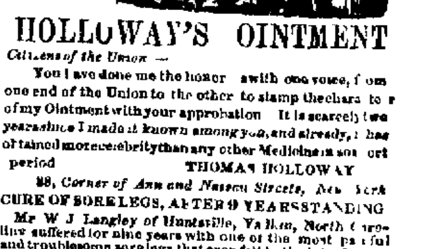
A CURE FOR ALL!!



HOLLOWAY'S OINTMENT

Citizens of the Union.—

You have done me the honor, with one voice, from one end of the Union to the other, to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short period. THOMAS HOLLOWAY

80, Corner of Ann and Nassau Streets, New York.

CURE OF SORE LEGS, AFTER 9 YEARS STANDING.

Mr. W. J. Langley of Huntsville, Valkin, North Carolina suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man, and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured, but a friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR.

Mr. R. DURANT, of New Orleans, addressed Professor HOLLOWAY as follows:—For 7 years my wife had a bad breast, with ten running wounds, (not of a cancer nature,) I was told that nothing could save her, she was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs. Wright & Co., of Chartres st., New Orleans. I send this from Hotel des Princes, Paris, although I had written it at New Orleans, before we finally left, not knowing your address at New York.

Nov 9th, 1853 (Signed) R. DURANT

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Contracted and	Lumbago	Sore throats
Bad Breasts	Stiff Joints	Piles	Skin diseases
Burns	Fistulas	Rheumatism	Scurvy
Bunions	Gout	Salt Rheum	Sore heads
Chilblains	Glandular	Scalds	Ulcers
Chapped hands	swellings	Sore nipples	Wounds

☞ Sold at the establishment of Professor HOLLOWAY, 80, Corner of Ann and Nassau Streets, New York, also by all respectable Druggists and Dealers in Medicines throughout the United states, in Pots, at 37½ cents, 87 cents and $1.50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

☞ There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

S. JOHNSON, Jr., Wholesale Agent for Holloway's medicines, for the State of Wisconsin, 1?1 East water st. Milwaukee. jly24d&w

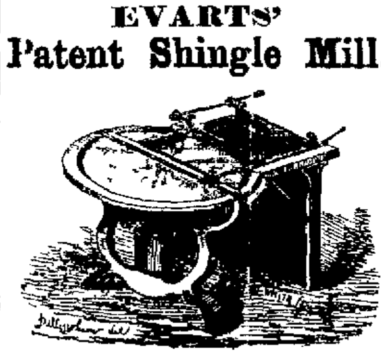
EVARTS'

Patent Shingle Mill.



EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction, great speed of execution, and the flexibility of the single width wise removes the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market at only five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order

You have a full view of the City and Lake, for health it is not to be surpassed; the soil is rich, and I see no reason why property in Sherman's Addition should not command as good prices as in the First Ward, and it will if only a few individuals will commence and build fine houses. I, for one, will sell my present premises, and would agree to build in Sherman's Addition, Second Ward.

AMERICAN ACTION PIANO FORTES,

Manufactured by GILBERT HEWS, of Boston, Mass

The Patent American Action Piano Fortes distinguished for its great fullness, richness and sweetness of tone, evenness of scale and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following

From the illustrious Pianist, L M GOTTSCHALK, to Mr Hews, Agent at New York:

New York, Dec 5, 1852

Mr N J CURTISS —

Dear Sir Having had the pleasure of performing upon Geo Hews American Action piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully,   L M GOTTSCHALK

From the distinguished Pianist, WILLIAM MASON

Mr HEWS —Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action I am free to acknowledge that for certainty and elasticity of action, power, purity and equality of tone I have never seen them surpassed in the square Piano Forte.

WILLIAM MASON

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect

QUEEN'S PATENT

PORTABLE FORGE AND BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe

There are six sizes of Blacksmiths, Coppersmiths &c Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out door work and for safety in doors, this Forge has great advantages over others having two Slides by which the forge can be close ly shut up, and for safety and many purposes in doors, (particularly for Jewelers, Dentists and for chemical operations) all the fumes from the charcoal and acids being conducted through the smoke pipe, or when open they are entirely out of the way. It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed

It is the best Forge for Contractors on Railroads Public Works, (for making repairs on the same,) and for emigration to new countries ever offered to the public, and are successfully used by most of the steamers, and also by the U S Army and Navy. For sale by

Its application in Burns or Scalds [illegible] The tempest of pain and agony is soon stilled, and the patient [illegible] to quiet and peaceful slumbers. There is a balm for every wound, and that balm is the Mustang Liniment. Everybody that sells medicine keeps it for sale. [illegible] and [illegible] use the Mustang Liniment. In a word it is

Pains or Inflamation in Man or Beast.

RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15, 1854

Messrs A G BRAGG & Co.,

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment in all cases of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton, and nothing else, and in ten days it was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling [illegible] and it had the same good effect.

Yours, truly,   D B MILLER, County Judge

RUSSELL COUNTY, Ala, Feb 1 1853

For the benefit of the afflicted, I feel it my duty to state publicly the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A Negress of mine had what is called a Bone Felon or Whitlow on her finger. The inflammation had been so extensive that the whole finger had become a mass of corruption and the only hope of saving her hand and perhaps her life appeared to be to have it cut off. As her general health was very delicate, the physician advised me to try the Mustang Liniment a few days till she could be sent to a surgeon in Columbus, as it could do no harm and it might prevent mortification. To the astonishment of all, the odor and muscle [illegible] inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned, the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure were almost beyond belief, but a short time elapsed before all wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation.

JAMES PHILIPS,

NOTHING NEW—BUT EVER TRUE.—It would be useless for us to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores, as well as piles, erysipelas, pains or lameness in the back, side or limbs, than any other remedy. These are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used, and never has a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES —It is put up in bottles of all sizes and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

HOLLOWAY'S OINTMENT

Citizens of the Union —

You have done me the honor with one voice, from one end of the Union to the other to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short period.   THOMAS HOLLOWAY

80, Corner of Ann and Nassau Streets, New York

CURE OF SORE LEGS, AFTER 9 YEARS STANDING

Mr W J Langley of Huntsville, Yalkin, North Carolina suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man, and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured, but a friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal and he entirely regained his health, to the astonishment of his acquaintances and friends

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR

Mr R DURANT, of New Orleans, addressed Professor HOLLOWAY as follows —For 7 years my wife had a bad breast, with ten running wounds, (not of a cancer nature,) I was told that nothing could save her, she was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs Wright & Co of Chartres street, New Orleans. I send this from Hotel des Princes, Paris, although I had written it at New Orleans, before we finally left not knowing your address at New York
